Gapminder

Heathcliff Neels

11/03/2021

```
tinytex::install_tinytex()
```

Introduction

In this document,we will be exploring the Gapminder dataset

observations from the Gapminder dataset

Countries with life expectancy less than 30

```
## # A tibble: 2 x 1
##   country
##   <fct>
## 1 Afghanistan
## 2 Rwanda
```

Unfortunately there *have* been countries with low life expectancies. . .

R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.
When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed           dist
##  Min.   : 4.0   Min.   :  2.00
##  1st Qu.:12.0   1st Qu.: 26.00
##  Median :15.0   Median : 36.00
##  Mean   :15.4   Mean   : 42.98
##  3rd Qu.:19.0   3rd Qu.: 56.00
##  Max.   :25.0   Max.   :120.00
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
